High Quality, Innovative Personal Care Products
Because Your Body Deserves Better

SILVERBOTANICALS

Our Mission

Silver Botanicals is devoted to developing and providing safe, effective, all-natural personal care and household products. Central to our products' formulations is the use of true-colloidal silver and pure essential oil blends. Silver Botanicals employs both these ingredients synergistically, along with other all-natural ingredients, to produce extremely-effective, affordable, high-quality products.

Our Core Philosophies

We believe that nature provides for all our essential health needs; that powerful, time-tested, natural solutions are more harmonious with our bodies than synthetic, man-made substances.

We believe in superior quality assurance through careful sourcing of ingredients and direct manufacturing of our products. We strive to improve our products through continual process improvements, research, and close interactions with our customers.

We believe in providing our products at affordable prices. Our goal is to bring high quality, all-natural products to the masses.

We believe in excellent customer service. We strive to always operate in a friendly, personal, and honest manner. We believe in empowering our customers through producing & providing educational materials & resources.

About Our Ingredients

Silver Botanicals products contain safe and natural ingredients. We do not use petrochemical, GMO, or synthetic ingredients, or any known-harmful substances. We also verify ingredient quality by in-house testing. We only use high quality, food grade, vegan ingredients. We do not conduct animal testing, or outsource any such tests.

About Our Essential Oils

At Silver Botanicals we use 100% pure, unadulterated essential oils. This means that nothing has been added and nothing has been taken away. Our oils are mostly steam distilled, with a few oils that are absolutes, cold-pressed, or extracts. Our oils are organic and/or wildcrafted whenever possible. Our oils are selected with respect to their native regions of the world which impart their respective therapeutic value and potency.

About Our Colloidal Silver

At Silver Botanicals we use true colloidal silver. We source our colloidal silver from a premium manufacturer whose end product is a refined nanosilver concentration suspended in distilled water. Our silver particles contain, on average, around 30 atoms (~0.65 nanometers in diameter). Our products contain between 10–30 ppm of nanosilver.

Both particle size and concentration are ideal for our products' intended use.

Luxurious and effective care for
your hard working feet

Your feet mirror your general health!

- ☛ *There are ~250,000 sweat glands on the feet, producing approximately a half pint of perspiration daily.*
- ☛ *Soles of feet contain more sweat glands and sensory nerve endings per square centimeter than any other part of the body.*
- ☛ *1/4 of all the bones in the human body are down in your feet.*
- ☛ *Reflexology was practiced as early as 2330 B.C. by the ancient Egyptians.*

About Silver Botanicals

With over 40 years of experience in chemical engineering, process development, and natural therapeutics, Dean DeWulf and Raymond d'Amico founded Silver Botanicals in Austin, Texas in 2010. Silver Botanicals was born from the desire to innovate more effective all-natural products guided by the principles of health freedom and self-empowerment.

The Journey

People in mass are awakening to a new era of health understanding. A rebirth of ancient wisdom is being uncovered and realized through modern means. At Silver Botanicals, we are dedicated to bringing you safe and effective, all-natural alternatives to today's common household and personal care products. It is our strategy to use both true colloidal silver and pure essential oils, synergistically combined with 100% natural ingredients to produce high quality, highly effective products.
